Allowable Subject Matter

Claims 48-62 are allowed. Examiner notes that claims 1-47 are cancelled by the applicant. The following is an examiner's statement of reasons for allowance:

As per claim 48, the prior art fails to teach "in response to the recognition that the particular non-idempotent operation has already been performed on the secondary directory, the secondary server sending an indication to the client sending an indication to the client that the particular non-idempotent operation was successfully performed on the secondary directory even though the non-idempotent operation was not performed on the secondary directory after receiving the request." Independent claims 52 and 56 disclose similar limitations. Dependent claims 49-51, 53-55, and 57-62 are allowable due to the dependency on claims 48, 52, and 56, for reasons stated above, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
